General Description

MAX9759ETE is an integrated audio amplifier IC (integrated circuit) designed by Maxim Integrated. Here are some of its features:

Features

- It is a Class D amplifier, which means it has high efficiency and low power consumption.
- It can deliver up to 20W of power per channel into 4Ω speakers.
- It has a wide supply voltage range of 8V to 28V.
- It has built-in thermal and overcurrent protection.
- It includes a shutdown pin for power-saving.

Application

- Portable speakers
- Home theater systems
- Multimedia sound systems
- Automotive audio systems
- Public address systems
