General Description

DS9093A+ is a unique 1-Wire iButton probe with a stainless-steel casing that is designed to be mounted on a surface or inserted into a hole for various applications.

Features

- Stainless-steel casing that is resistant to harsh environments
- Compact and easy to mount or insert
- Communicates with a 1-Wire master through a single data line
- Provides unique 64-bit registration number to identify each iButton

Application

- Temperature logging and monitoring
- Asset tracking and management
- Access control and security
- Identification and authentication
