

TinyLogic ULP-A 3-Input AND Gate; Package: MicroPak; No of Pins: 6; Container: Tape & Reel, Gates (AND / NAND / OR / NOR) 2-Input AND Gate

Manufacturers	ON Semiconductor, LLC
Package/Case	6-UFDNFN
Product Type	Logic ICs
RoHS	Rohs
Lifecycle

General Description

The NC7SV11 is a single 3-Input AND Gate from Fairchild's Ultra Low Power-A (ULP-A) series of TinyLogic®. ULP-A is ideal for applications that require extreme high speed, high drive and low power. This product is designed for a wide low voltage operating range (0.9V to 3.6V) VCC and applications that require more drive and speed than the TinyLogic ULP series, but still offer best in class low power operation. The NC7SV11 is uniquely designed for optimized power and speed, and is fabricated with an advanced CMOS technology to achieve high-speed operation while maintaining low CMOS power dissipation.

Application

ONSEMI
