## LTC1992-1IMS8#PBF

Data Sheet

**RFO** 

Low Power, Fully Differential Input/Output Amplifier/Driver Family; Package: MSOP; No of Pins: 8; Temperature Range:  $-40^{\circ}$ C to  $+85^{\circ}$ C

Manufacturers	Analog Devices, Inc	The second se
Package/Case	MSOP8	
Product Type	Amplifier ICs	
RoHS	Pb-free Halide free	
Lifecycle		Images are for reference only

### **General Description**

The LTC1992 product family consists of five fully differential, low power amplifiers. The LTC1992 is an unconstrained fully differential amplifier. The LTC1992-1, LTC1992-2, LTC1992-5 and LTC1992-10 are fixed gain blocks (with gains of 1, 2, 5 and 10 respectively) featuring precision on-chip resistors for accurate and ultrastable gain. All of the LTC1992 parts have a separate internal common mode feedback path for outstanding output phase balancing and reduced second order harmonics. The VOCM pin sets the output common mode level independent of the input common mode level. This feature makes level shifting of signals easy.

Please submit RFQ for LTC1992-1IMS8#PBF or Email to us: sales@ovaga.com We will contact you in 12 hours.

The amplifiers' differential inputs operate with signals ranging from rail-to-rail with a common mode level from the negative supply up to 1.3V from the positive supply. The differential input DC offset is typically  $250\mu$ V. The rail-to-rail outputs sink and source 10mA. The LTC1992 is stable for all capacitive loads up to 10,000pF.

The LTC1992 can be used in single supply applications with supply voltages as low as 2.7V. It can also be used with dual supplies up to  $\pm$ 5V. The LTC1992 is available in an 8-pin MSOP package.

#### Features

- Available with Adjustable Gain or Fixed Gain of 2, 5 or 10
- 3.5ppm/°C Gain Temperature Coefficient
- 5ppm Gain Long Term Stability
- Fully Differential Input and Output
- CLOAD Stable up to 10,000pF
- Adjustable Output Common Mode Voltage
- Rail-to-Rail Output Swing
- Low Supply Current: 1mA (Max)
- High Output Current: 10mA (Min)
- Specified on a Single 2.7V to  $\pm 5V$  Supply
- DC Offset Voltage <2.5mV (Max)
- Available in 8-Lead MSOP Package
